*Čilayun-u bičig, A Mongolian Prophetic Text.* Edited, translated and commented upon by J. Lubsangdorji and J. Vacek. 87 pp. Prague: Karolinum, 1997. ISBN 80-7184-415-2

A rare Mongolian prophetic text published with an extensive philological commentary and literal translation. Facsimile of the text is enclosed. A text whose parallels may be also looked for in other Central Asiatic languages. The source of the present copy seems to be a Chinese original. The text is partly overlapping with another version published by A. Sárközi. To be used by librarians, specialists in Mongolian and Central Asian studies.
