(A Guide through the History of Old-Indian Literature) The so far most comprehensive Czech survey of classical Indian literature written in Sanskrit, in the Prakrits, in Pali (D. Zbavitel) and in Old and Middle Tamil (J. Vacek). The survey finishes roughly by the turn of the 1st and 2nd millennium AD. Rich bibliography, numerous samples of original works (prose and verse). The book can serve for general information (a complete index of the names of authors and works) and also for a more detailed study.
